

Strategies

1. ASTEMI will use Olympiads and Competitions to promote the sharing of resources in local communities.
2. ASTEMI will encourage university scientists and engineers to play an active role in organising and supporting STEMI Olympiads and Competitions that provide a common ground for university academics and school teachers.
3. The cooperation of scientific societies and professional organisations in supporting STEMI Olympiads and Competitions should be actively pursued.
4. ASTEMI will support STEMI improvement by collecting and disseminating information about evidence-based best practices.
